Career Summary

Years of experience in various industries and lines have provided me with leadership skills and communication skills. I also have years of experience in engineering, sales and customer service.

Through these years of experience, I have learned the importance of communication, regardless of internal or external customers. Teamwork and being a responsible team player is an important element to a harmony and successful work place.

These few years of working experiences equipped me with good operational and organizational skills, as well as time and anger management skills, to work under tight schedule and stressful environment. I can work alone as well as a team player.

Core Skills

- Soft skill: HTML, CSS, JavaScript (basic), Python (basic), Django, React, MySQL
- Microsoft Excel 2013 (Basic & Intermediate and Advanced issued by ST Engineering Electronics)
- Building Management Systems (BMS/BAS)

- Technical Troubleshooting & Maintenance
- Electrical Systems Understanding
- Project & Contractor Coordination
- System Integration & Testing
- Customer & Stakeholder Communication
- Operational Reporting & Documentation
- Team Leadership & Training
- Time Management & Problem Solving
- Working under pressure and meeting deadlines.

Highest Education

Diploma in Full Stack Web Development (SCTP)
2006

Lithan Academy:

- 1)User interface Design
- 2)Programming Fundamentals
- 3)Database Design principles
- 4)Web Developemnt Design
- 5)Enterprise Software Development
- 6)Generative AI
- 7)Agile Project management
- 8)Capstone Project -Enterprise Software Implement

Diploma in Electronics, Computer & Communications Engineering
2003 - 2005 (Full Time)

Nanyang Polytechnic

Employment Summary

CS Control/ CS Engineering and Trading Pte Ltd Service and Maintenance Engineer	Jan 2022 - Present
Stelop Pte Ltd (ST engineering) Associate Engineer	Aug 2020 - Jan 2022
Land Transport Authority Senior Executive	Oct 2018 – Aug 2020
Land Transport Authority Senior Assistant Engineer	Oct 2016 – Oct 2018
Marina Bay Sands Senior Count Cashier (Supervisor)	Apr 2010 – Oct 2016
True Yoga (True Fitness) Membership Consultant	Feb 2008 – Sep 2009

Employment History

CS Control Pte Ltd (CS Engineering and Trading)

Service and Maintenance Engineer – Jan 2022 – Present

- Develop graphics and functional logic using in-house Honeywell programming tools, including AX Editor and XML configuration.
- Manage projects and maintenance works for Building Management/Automation Systems (BMS/BAS), which control and monitor building air-conditioning systems.
- Oversee system functions such as energy consumption tracking, VSD feedback, temperature monitoring, and chilled-water system data.
- Coordinate closely with various contractors and sub-contractors during project implementation to ensure proper integration between equipment (sensors, relays, controllers, etc.) and the BMS/BAS system.
- Verify that all wiring and cabling are accurately connected to controllers in accordance with system requirements.

- Liaise with facility management teams during maintenance phases to schedule servicing works and resolve system or equipment issues.
- Perform troubleshooting to diagnose and rectify faults within the BMS/BAS network and electrical components.
- Strengthen working relationships with contractors and facility managers, enhancing interpersonal and communication skills.
- Improve time management capabilities and deepen understanding of electrical systems through hands-on project and maintenance experience.

Associate Engineer – Stelop Pte Ltd (ST Engineering)

Aug 2020 – Jan 2022

- Managed Electro-Optic (EO) projects for ST Engineering's key clients, including the Singapore Navy and Police Coast Guard.
- Handled both hardware and software aspects of EO systems, ensuring proper operation, calibration, and configuration.
- Performed maintenance, servicing, and repair tasks for EO equipment to maintain system readiness.
- Supported project managers in planning, coordinating, and executing project deliverables.
- Assisted with production line activities, contributing to assembly, testing, and troubleshooting of EO systems.

Senior Executive – Land Transport Authority

Oct 2018 – Aug 2020

- Provided technical support to Engineers and Assistant Engineers for public and vehicle-owner enquiries.
- Collected and analysed information to deliver accurate and timely responses to the public.
- Supplied technical specifications and documentation for vehicles intended for export.

- Ensured compliance with regulatory and operational requirements related to vehicle standards.

Senior Assistant Engineer – Land Transport Authority

Oct 2016 – Oct 2018

- Worked under the Vehicle Approval and Control Section, handling approval processes for vehicle types in Singapore.
- Managed and processed vehicle recall notifications in accordance with regulatory requirements.
- Oversaw applications for vehicle modifications, ensuring compliance with safety and regulatory standards.
- Conducted audits at authorized vehicle inspection centres to ensure consistent operational standards.

Senior Count Cashier (Supervisor) – Marina Bay Sands

Apr 2010 – Oct 2016

- Led a team responsible for collecting and securing casino revenue.
- Oversaw the counting, verification, and recording of daily casino takings.
- Prepared operational reports on daily profits and losses for management review.
- Trained new staff on counting procedures, security protocols, and operational workflows.
- Provided process improvement suggestions and operational solutions to enhance efficiency and accuracy.

Membership Consultant – True Fitness

Feb 2008 – Sep 2009

- Delivered product knowledge and guided potential customers through membership packages.

- Achieved membership sales targets through effective communication and customer engagement.
- Assisted customers in selecting suitable membership plans based on fitness goals and needs.
- Maintained strong client relationships to support long-term membership retention.

Additional Information

- Nationality: Singaporean
- Marital Status: Married
- Race: Chinese
- Date of Birth: 20 Feb 1985
- Driving Licenses: Class 3, Class 2B
- Current Salary: ~\$3,200 + company vehicle (Toyota Vios)
- Expected Salary: \$3,500–\$5,000 (Negotiable; includes allowances/OT)
- Experience Areas: Engineering, Operations, Customer Service, Sales, Administration, Team Leadership, F&B
- Reason for Seeking New Role: Looking for long-term career growth, structured training, and advancement opportunities.
